

[DALI-BAY]

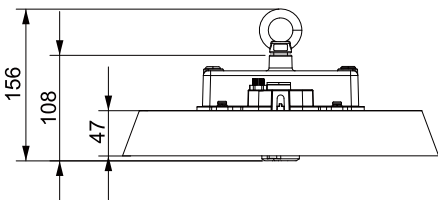

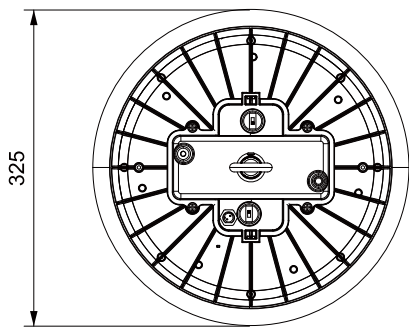

DALI D4i INTELLIGENT NETWORKING
ADJUSTABLE ANGLE LENS

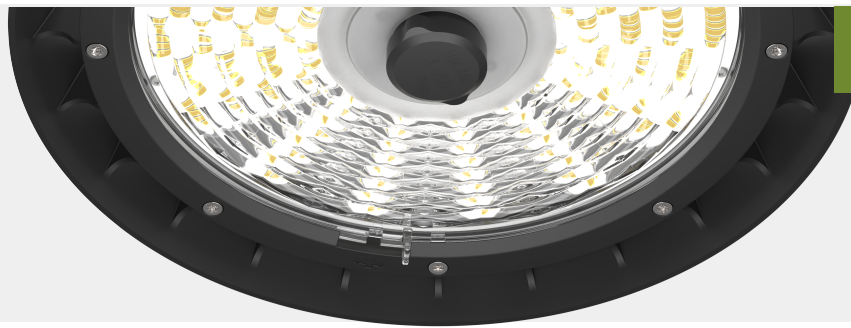

Description

Dail-bay is a new type integrated Dali driver highbay with cost-effective pricing, main feature with Dali D4i wireless control and data access through networking. Supported with Zhaga interface for functionality. The widely use applications in factory manufacturing, warehouse, logistic center, exhibition hall and other scenes.

Key Features

- Wattage: 200W (adjust by switch 150W/100W)
- Single CCT or 3000K/4000K/5700K Switchable
- Luminous efficiency: 150-190lm/W
- Optics Beam angle : Adjustable 60°/ 90°
- Protection: IP65,IK08
- Using environment: The lamp using ambient temperature -25~+50℃ , lifespan >50000 hours
- Power supply protection: Short Circuit Protection (SCP)/ Over Voltage Protection (OVP) and Over Temperature Protection (OTP)
- Dimming control: 0-10V or Dali 2(D4i)
- Controller interface: Zhaga book18 Standard interface
- Installation: Chain Suspending, Surface mounted bracket

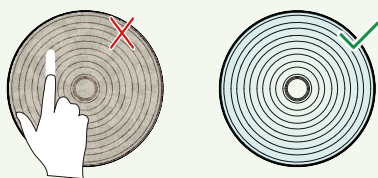

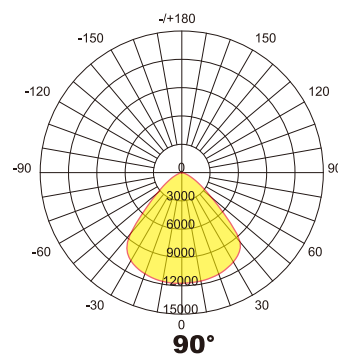

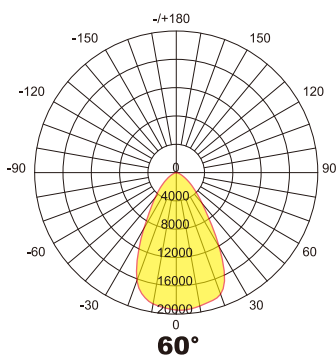

Technical Specifications

Input Volt	AC200-240V 47-63Hz	Installation	suspension/hanger/bracket
Power Factor	>0.9	Beam Angle	60°/90°
Surge Protection	>4KV	CRI	>70 or >80
THD	<10%	Lumen Efficiency	150-190lm/w
Lifespan	>50,000 Hours	Working Temperature	-20°C ~ +50°C
Housing Materials	Die-cast Aluminum + PC LENS	Housing Colour	Black
IP grade	IP65	LED Chip	SMD2835
IK grade	IK08	Warranty	5 Years

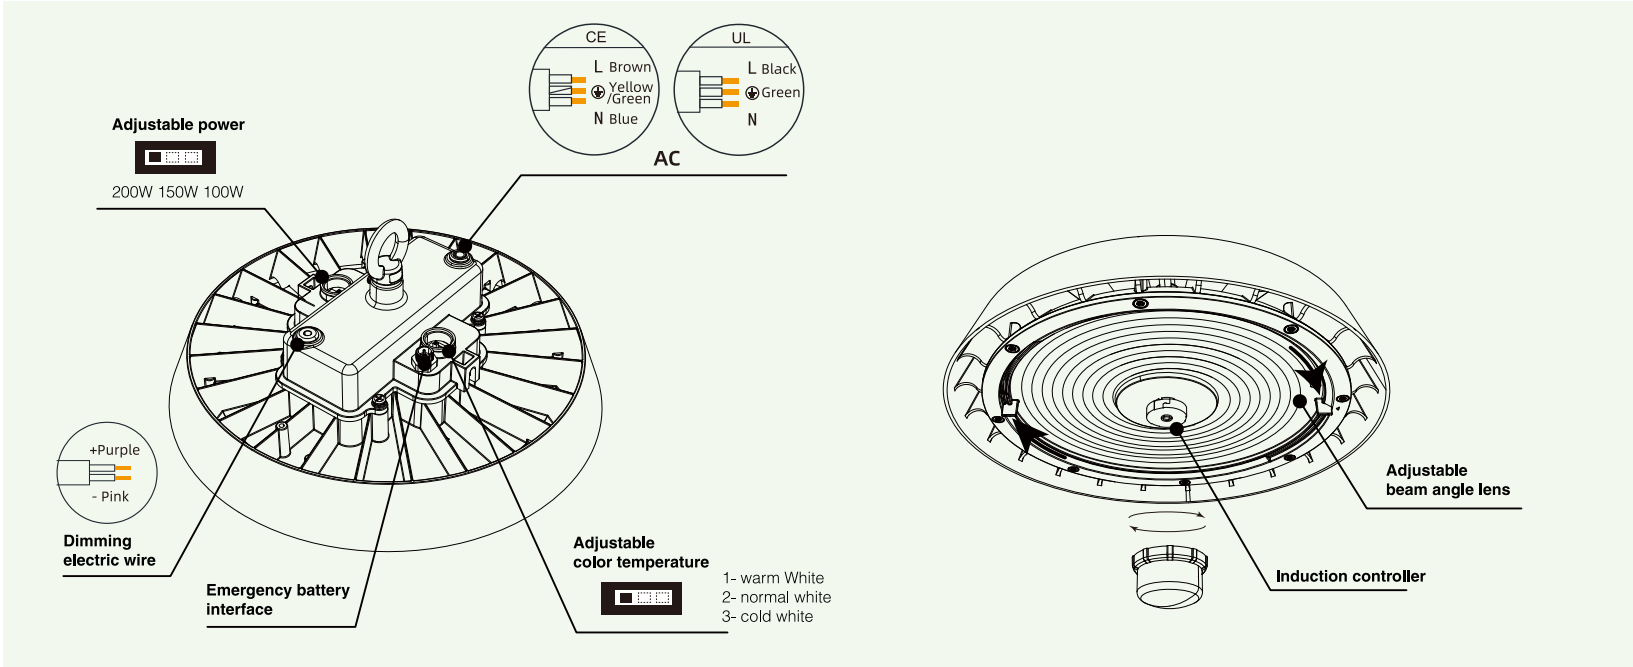

Specification

Model	Power	CCT	L	H	W	Net Weight	Gross Weight
HB-200W	100/150/200W Switchable	Single CCT or 3000K/4000K/5700K Switchable	325	325	108	2.75kg	3.6kg

Photometric data

* Basing on the influence of real application environment, and considering the safety factors of long-term operation of the equipment, should make the inspection and maintenance plan, and the surface of the lens product should be regularly cleaned and maintained.
 * Secondary fall protections is recommended for all suspension mounting luminaires/equipment.
